

## SPRING ARM

### / PRODUCT CARE AND USE

Please follow these product care instructions. Our aim is to provide you with years of hassle-free weather protection with very little maintenance. Failure to follow these will void your warranty.

**MAKING  
SHADE**

## FABRIC CLEANING

- To achieve a longer life expectancy and a better look to the fabric we suggest cleaning your Docril fabric with a soft bristle brush and rinsing with water.
- For localised stains clean with a standard household dish washing detergent mixed with lukewarm water (maximum 40 degree Celsius) and then rinse.
- The fabric should NOT be scrubbed with a stiff brush, scouring pad or the use of any abrasive cleaners.
- The use of high pressure water to blast the fabric clean is not recommended.
- The fabric must be left to dry completely before rolling it up.

## HARDWARE MAINTENANCE

- Your awning components are powder coated using Dulux powder coat systems.
- As a general rule cleaning should take place every six months. In areas where pollutants are more prevalent, such as beach front and industrial or geothermal areas, then a cleaning program should be carried out on a more frequent basis ie; one to three months.
- Carefully remove any loose surface deposits with a wet sponge, use a soft brush and a mild household detergent in warm water and rinse off with warm water.
- It's recommended to check all fasteners annually.

## OPERATION

When manually operating the awning via your crank handle you should extend slowly and not force the crank handle. You must ensure to keep the handle on the same angle as the gearbox position.

## POLE

Your crank handle pole is not designed to live outside. Please ensure you keep your pole inside at all times otherwise it will rust.

## PRODUCT SERVICE

Don't forget we offer a product warranty service. This service will check the operation of the awning, change remote control batteries if necessary, check the condition of the fabric and stitching and clean if necessary and lubricate the arms. If you would like us to come out and give your product a service please get in touch with the team at Making Shade.
